Contents

Chapter 1 Activity P1	4
Chapter 2 Activity P2	5
Chapter 3 Activity P3	6

Chapter 1

Activity P1

Complete this activity to test your knowledge of the entire chapter:

1. What are the two steps in planning for pest control?

2. What are the three categories of PPPs?

3. What department must PPPs be registered with?

4. What are the three most common application methods?

5. What are the four main types of foliar applications?

6. What equipment is commonly used for foliar applications?

7. What are the health and safety requirements for PPP applications?

Chapter 2

Activity P2

Complete this activity to test your knowledge of the entire chapter:

1. What safety information on product labels must the mixer take note of?

2. What are colour codes used for?

3. What is required for the mixing process aside from the chemicals themselves?

4. How is the amount of chemicals required for an application calculated?

5. What are buffers used for?

6. Where must PPPs be stored?

7. What should be done with empty chemical containers?

Chapter 3

Activity P3

Complete this activity to test your knowledge of the entire chapter:

1. What are the climatic conditions that affect foliar applications?

2. How does wind affect spraying?

3. Why should trees not be wet during spraying?

4. Which kind of spray material should not be applied during bright, hot days?

5. Why must spray equipment be calibrated before application?

6. What is the most important part of mistblower calibration?

7. What should occur post-application?
